Being a big fan of Sherlock Holmes and his powers of deduction, I was thrilled to discover The Case of Mister Wallingsworth and read it with my granddaughter. Author Denniger Bolton creates an enchanting world inside an apartment building in New York City where Sam lives with her father. When he asks her now that she's ten years old what she's decided to do with her life since he knew by that age exactly what his calling was she proclaims she wants to be a detective. Though he isn't as supportive as she might like neither is he dismissive. And as luck would have it, her next door neighbor's cat has mysteriously vanished, and so Sam has her first case drop right into her lap. Though vexing in the beginning, Sam keeps at it, asking herself what Sherlock Holmes would do in such a situation. Will she find Mr. Wallingsworth? Or will her short career as a detective end before it has really begun? You gotta read it for yourself to see!1 of 1 people found the following review helpful. The book is sometimes funny (as in light chuckle or a small amount of wind leaves your nostrils funny) and the story flows nicely - I enjoy a fast paced book without useless fluff.The chapter that intrigued me the most is the one named bdquo;what would Sherlock doldquo;, where our young detective writes down a very interesting diary entry(hint: the cat has a mustache!)!Overall, short and sweet. Recommended!1 of 1 people found the following review helpful. Samantha, the great 10 year old cat detective.By Gerald PattersonFirst of all I like this book. Plus, I'm an adult. However, I do write kid's books myself so I'm somewhat of an expert. Well, not exactly an expert, but I know what kids like and they will really like this book.Samantha lives in an apartment at the top of a penthouse in New York City. Her neighbor is an older lady that has lost her cat. Samantha wants to be a detective when she grows up, so finding the cat, named Mister Wallingsworth, is her first job. You'll like this story because Samantha works hard as a cat detective and has fun doing it. Plus, she's funny. This book was written by Denniger Bolton and he has written other great kid's books and this one is really good too. I know if you read this book, you'll be writing a good review too. Enjoy!

10 Year Old Private EyeMeet Samantha Post. Sam to friends and family. A girl who likes everybody. She's smart and has already decided she wants to be a private eye when she grows up. Actually, she's already gotten her first case, to

find Mister Wallingsworth who has simply disappeared from Miss Brickstone's apartment. Using techniques she's learned from reading the entire works of Sherlock Holmes, she takes on her first case.
